DETAILED ACTION

Allowable Subject Matter

1. Claims 1-6 are allowed over prior art.
2. The following is an examiner's statement of reasons for allowance: regarding claim 1, the primary reason for allowance of the claim is the specific limitation of a test method of internal connections between a first integrated circuit and a second integrated comprising applying a second signal generated in the second integrated circuit from the first signal to the first integrated circuit and outputting a third signal generated in the first integrated circuit from the second signal to a second pin of the semiconductor package. In the examiner's opinion, it would not have been obvious to a person of ordinary skill in the art to include the above limitations with the prior art to get the desire results. Since claims 2-6 depend off of claim 1, they are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
